## ABOUT ME

I'm 19 years old. Recently I graduated High School in IT field on Vocational High School Klobouky u Brna. I love to code, learn about things, drive in car, spend time with friends, exploring nature and play video games.

Right now I'm doing smaller projects in NextJS framework built on React with Typescript superset (For example coding my personal website and E-shop as a contract which are published on my GitHub page ).

I think I'm fast learner in general even if I have to learn something that could be quite boring. Maybe I'm not perfect but who is? What i find perfect about me is that I'll do my best to learn things I don't already know and grow my potencial.
